## User Flow

- Go to the shop/downloads page which displays the downloads (EDD Products) available in the system.
- Add a download (product) to the cart.
- If the downloads/products added in the cart are LearnDash courses then the “buy as a gift” checkbox is displayed on the checkout page.
- On enabling the “buy as a gift” checkbox the “Buy as a gift” section is displayed.
- The “Buy as a gift” section contains the following fields:
  - Buy as a gift label: Can be changed from the setting page.
  - Email address: Email address of the receiver user.
  - Date: If the send as a gift later option enabled.
  - Message: Message to the gift receiver.
- When the download/product is purchased, the user account will be created using the entered email address and enrolled in the assigned courses.
- If the receiver email address is present then this user will get the assigned course access.
- If the user selects a date, then the gift receiver will get the course access on the selected date.
- An email will be sent to the gift receiver.
- The purchaser will get the course access if the “Enable purchaser enrollment to the course” option is on.
- On transaction cancellation or expiration, the respective course access will be revoked.
